Featured is beaded inset with finely detailed picture frame moulding surrounding a solid recessed panel. The Antique Spice finish on select pine, accented by pegs, cut-nails, and turn latches, creates a warm and cozy atmosphere. The island of blue over blue-green Antique Paint can be finished in any combination of five colors; blue, green, blue-green, red, or mustard.

French Country is an acclaimed decor for newer homes as well as those built 150-200 years ago. Shown is the flush inset construction combined with the authentic flair of double beading around the island and on the face of each built-in appliance.

Round top mullion frame doors symmetrically accent the window contributing to an overall welcoming atmosphere, inviting family and friends to socialize.

This English Country kitchen displays a distressed bleached and limed finish on white oak in order to create an antique-like atmosphere. Fluted columns, plate racks and open display areas contribute to an inviting and functional preparation area.

A discriminating design of solid cherry and beaded inset with round knobs formally conceals the contents of each cabinet in this distinguished custom kitchen.

Unite your favorite hues with the beauty of natural wood. This homeowner selected two colors and combined them with natural cherry to present a lifestyle that is warm and inviting. Notice the wall cabinet heights follow the slope of the ceiling for added function and aesthetics.

Illustrating the use of a very soft pastel yellow on white oak, this kitchen provides open areas which define the space as well as the lifestyle. Delicately turned posts, hand cut fret work and glass mullion doors add to its casual elegance.

Cover Photo . . . Influenced by the eighteenth century, a precise proportion of pilaster columns and dentil mouldings create a classic design indicative of both grace and strength. Whether applied to a complete kitchen or a free-standing hutch (as shown) the effect is outstanding. Choose from over 3,000 colors.

Our craftsmen express their unmatched woodworking skills daily. Shown is a classic example of cornice detailing handcrafted to last for years.

The sum of fine detailing and delicate proportions result in designs with completed visual interest.

For over 20 years, Craft-Maid has been committed to the highest traditions of fine woodworking. Craft-Maid's renowned Traditional Series is of all wood construction. Our entire product line has been built on a foundation of unequalled finishes and quality joinery, only to be expanded by the vision and drive to attain the styles, finishes, design details, and elements that create the desired lifestyle. Whether in the kitchen or throughout your home, the ambience created by Craft-Maid's fine cabinetry can be adapted to the needs of your social environment.

Our drawer construction is built of solid wood with furniture finger dovetails available. Also available are hidden self-closing drawer slides which provide an exceptionally smooth gliding action.

Centuries ago milk paints were used to finish the cabinetry of the times. Areas of greatest use displayed the greatest wear. Today, this effect is popular as a design element and can be tastefully applied to your custom kitchen cabinetry.

---

Your favorite colors combined with the wood specie of your choice will create a unique blend of individualism and charm when applied to this country style design. Featured is a solid teak countertop which surrounds the large farmhouse sink.

Detailed with mullions and glass, the quarter circle upper doors create an interesting focal point. Hand woven willow baskets provide open drawer storage for fruits and vegetables while full size storage bins both display and store commonly used grains or produce, adding to the casual atmosphere.

Our Craft-Maid designers are trained to help you create the atmosphere desired in your home, whether it be formal, informal or contemporary.
